

GREATER SUDBURY UTILITIES
has an opening for a
Protection and Control Technologist

The successful applicant must have:

- Three year college program in electrical technology
- Exceptional leadership, planning, interpersonal and communication skills.
- Class “G” driver’s licence.
- Five years experience in relaying, metering, control and communications work, preferably within an electrical utility.
- Strong background in SCADA and Ethernet communications

The successful applicant will be required to:

- Install, commission and maintain SCADA, Load Control, Distribution Automation, Substation Protective Relaying-Metering Control and the Communication Networks for these systems.
- Participate in the planning and design of the above systems.
- Participate in the analysis and studies related to the technical and economic feasibility of Utility projects.
- Maintain a professional working relationship with customers.
- Responsibility for new substation or substation upgrade projects.
- Perform protective device coordination studies.

Greater Sudbury Hydro Plus Inc. is offering a competitive salary and an attractive benefit package. Interested applicants are invited to submit a detailed resume until Friday, April 28th, 2017 no later than 4:30 p.m., in confidence to:

Human Resources
